November 2013

November is the time for friends, family, pumpkins and turkeys. Still a great time for a hike, to enjoy the changing colors and relax while we wait for the snow. We invite you to come play on the mountain and relax at [our cabins](#). The hot tub is always open.

Trail of the Month

Trillium Lake Loop The 2 mile trail begins and ends on the east side of the dam at Trillium Lake. The trail goes around the lake and through the campground. There are great views of Mount Hood along this trail. The trail crosses wetlands that provide bird watching opportunities. Check here for a map and directions [Trillium Lake](#).

Bob and Margaret Thurman
